

KFCA & KHSAA VIDEO EXCHANGE POLICIES 2009

To All Head Football Coaches in the state of Kentucky

Below is a listing of policies from the KFCA and KHSAA on Video Exchange for football in the State of Kentucky. After multiple years of problems and complaints concerning video exchange, we have found it necessary to compile the following policies for the exchange of video between schools playing football contests in the state of Kentucky. Starting in 2009 these policies will be part of the contract between the two schools playing any football contest. In the 2008 season we will be using these policies for all 2008 contests. As football coaches we would like to think that each coach is a professional and can agree to follow these policies. There is no logical reason not to exchange video and to make sure the video is quality video. In 2008 we will be following these policies as adopted by the KFCA at the annual meeting in December 2007. As a member of the football coaching profession we would like every school to follow these policies in 2008. If you have a problem with a video then you should first contact the Coach and team you traded with to solve the problem. If that does not work then you are to contact Dale Anderson Dandcoach@aol.com to address your concerns and to see if the KFCA can do anything to help the situation. IF not the school that refuses to exchanged or cannot follow the policies will be contacted. In 2009 there will be contract recourse for these problems.

There is currently a Statewide effort to go to online video Exchange for the 2010 Season. WE will be testing the system during MAY & JUNE. The Cost is \$250.00 per school each year. There is a form enclosed to join the online system. This is refundable if the system does not fit our needs, The Online system will be able to alleviate all problems with video exchange by making films available for all sources.
